

Ommen, 6th september 2021

**Subject: Update**

Dear customer,

We hereby inform you about the current delivery times and the availability of raw materials.

**Delivery times**

Below you will find a summary of the current production times (**from date of order confirmation/approval date**) per tape quality **for both new and current orders**. Of course this is and remains a snapshot and can change:

<b>PVC 53my</b>	: approx. 14 working weeks
<b>PVC colors*</b>	: limited availability, to be discussed
<b>PVC 63my</b>	: limited availability, to be discussed
<b>PVC 83my</b>	: currently not available, pending delivery information
<b>Paper</b>	: approx. 10 working weeks
<b>PP-Hotmelt</b>	: approx. 8 working weeks
<b>PP-Acryllic</b>	: approx. 8 working weeks

\*: PVC colors = transparent, brown, red, yellow, orange, etc.

**Outlook**

In recent days we have received cautious positive outlooks on the delivery situation of PVC tape from our suppliers. We have already received deliveries for the month of September and new deliveries have already been confirmed. The outlook for continuous deliveries for the coming months looks good and we are optimistic that the worst times are behind us. This information is of course subject to change, but we are pleased that there seems to be a concrete view of improvements.

We kindly ask you to inform your customers and thank you again for your understanding.

Yours sincerely,  
**LARO TAPE GROUP B.V.**

Koen Rolvink  
Managing Director
