

July, 2017

RoHS Statement

RoHS stands for Restriction of Hazardous Substances, and impacts the entire electronics industry and many electrical products as well. The original RoHS, also known as Directive 2002/95/EC, originated in the European Union in 2002 and restricts the use of six hazardous materials found in electrical and electronic products. All applicable products in the EU market since July 1, 2006 must pass RoHS compliance.

Directive 2011/65/EU was published in 2011 by the EU, which is known as RoHS-Recast or RoHS 2. RoHS 2 includes a CE-marking directive, with RoHS compliance now being required for CE marking of products. RoHS 2 also added Categories 8 and 9, and has additional compliance recordkeeping requirements.

Directive 2015/863 was published in 2015 by the EU, which is known as RoHS 3. RoHS 3 adds four additional restricted substances (phthalates) to the list of six.

The substances involved are:

- 1 Lead (Pb)
- 2 Mercury (Hg)
- 3 Cadmium (Cd)
- 4 Hexavalent Chromium (Cr VI)
- 5 Polybrominated Biphenyls (PBB)
- 6 Polybrominated Diphenyl Ethers (PBDE)

- 7 Bis(2-Ethylhexyl) phthalate (DEHP)
- 8 Benzyl butyl phthalate (BBP)
- 9 Dibutyl phthalate (DBP)
- 10 Diisobutyl phthalate (DIBP)

As Laro Tape does not produce or sell any electrical or electronic products these guidelines do not apply to us.

Kind regards,

Management Laro Tape
